## Breakout 4 – Russell Reinsch

# Volume 7, Standards Roadmap

---

- The need to include more pointers in the docs to other relevant sources
- Our roadmap needs to have a “predictive aspect”, not just a catalog
- Perhaps add a column structure for quick search and relevance for the reader
- Need to articulate the spectrum of standards (defacto standard, normative or informative by ISO definition, etc.)

## **Volume 9, Adoption and Modernization**

---

- **Need to address governance in more detail**
- **Address cloud integration**
